MEMORANDUM FOR: Representatives of the National Foreign Intelligence Board

FROM: [REDACTED]

Acting National Intelligence Officer for Europe

25X1

SUBJECT: Colloquium on Trends in European Views of the US

1. As I mentioned at the Warning and Forecast meeting on 20 August, I have reserved NIC conference room 7E62 for 27 August from 0900 to 1600 for a meeting of Intelligence Community specialists who follow US relations with Western Europe.

2. The meeting will explore the analytical community's views of the sources, current gravity, and likely future of anti-American sentiment in Western Europe. Like the interagency meeting on the European Left held in June, the discussion will attempt to identify methodologies and establish a common starting point for future discussion; it will survey existing information sources and identify collection gaps, rather than attempt to reach firm judgments.

3. The meeting, in part, is in preparation for a National Intelligence Estimate on the state of the Atlantic Alliance, requested by the Director of Central Intelligence. Accordingly, we will need to follow a more structured format than was the case in the last meeting. I propose the following agenda:

0930: Anti-Americanism: How to Assess and Classify the Beast?
1130: Shifting Elite Attitudes and their Impact on Policy-Makers
1230: Lunch
1315: Key Irritants and Agitators Affecting US-West European Relations
1430: Soviet Manipulations: Strategy and Tactics
1530: Wrapup

4. Please telephone me with any suggestions on the agenda before COB 25 August. Also, telephone attendance plans to our office [REDACTED] and have clearances certified by COB 25 August.
